

LOGIC PROBLEM
FRUIT

Four kids (Jane, Brian, Kim and Robert) had a piece of fruit (orange, apple, grapes or banana) on a certain day (Wednesday, Thursday, Saturday or Sunday).

Can you work out who has which fruit on which day from the clues below? A grid has been given to help solve the problem.

1. The person who had the orange ate it on a Saturday.
2. The woman who had the apple did not eat it on Sunday.
3. Robert did not eat the banana and did not eat on a Thursday.
4. People with a B in their name did not eat the orange.
5. Brian ate his fruit on Sunday.
6. Jane loved eating her orange.

	Orange	Apple	Grapes	Banana	Wednesday	Thursday	Saturday	Sunday
Jane								
Brian								
Kim								
Robert								
Wednesday								
Thursday								
Saturday								
Sunday								

Name	Fruit	Day

SOLUTION:
JANE – ORANGE – SATURDAY

BRIAN – BANANA – SUNDAY
KIM – APPLE – THURSDAY
ROBERT – GRAPES - WEDNESDAY
